

2331-USA

2331-USA bulb specifications:

category: **Miniature**

volt: **6**

amp: **4.5 / 4.5**

watt: **27 / 27**

base: **P15d30** - Double Contact Prefocus Flanged

also known as Double Contact Prefocus Bayonet

also known as **P15d** (Europe)

also known as **P30d** (USA)

glass: **RP11**

filament: **C6/C6**

fil.res.: **1.33 / 1.33** ohm

m.o.l.: **2.25** inches

l.c.l.: **1.13** inches

i.lumens: **12.6**

cp: **1**

d.hours: **400**

notes:

clear or opaque glass top Headlight

paint top with high heat black muffler paint to make opaque

scrape opaque paint off to make clear

usually clear top available

uses socket: [DB-P15D30-1](#)
