any comments

Although few specialty light bulbs and sockets are manufactured anymore, I have decent inventories of most types in stock, plus additional sources for nearly everything. All are guaranteed brand new, most being NOS (new old stock). Shelf life is forever.

Prices usually rise as inventory is sold off. Website updated daily to reflect current stock and prices. Click **add to cart** button above, and order at today's prices.

I don't guarantee brand of manufacture, but you are welcome to suggest a brand preference. If you do require a certain brand; read my [general information](#).

I need your help! I'm doing everything possible to provide free **accurate** bulb data and cross-referencing. If you have additional information or found errors, [click here](#).

Thanks to you; donsbulbs is the worlds largest resource of bulb data and cross-referencing.

Thank you, Don Schnapp

Definition of **light bulb** refers to **lamp**.

Definition of **socket** refers to **lampholder** (lamp holder).
